absorption Great breathability and

Dubai

It is a 100% polyester warp knit fabric. Its width is 160 cm and weight 125 GSM. On the face of the fabric there is a small hole that gives the fabric a great breathability and absorption, it also has a very low elasticity, it is a blocked fabric.

The colors are very varied and vivid.

It is an inexpensive article and widely established in the footwear industry, with multiple possibilities either for insoles or for inner lining.

It accepts treatments such as printing, gluing, foaming, etc.

Permanent stock. Available in more than 20 colors.

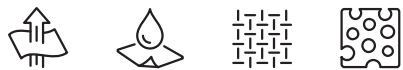

Tejido de punto por urdimbre en poliéster 100%. Ancho 160 cm y peso 125 gr/m². En la cara del tejido hay un pequeño calado que le da una gran transpirabilidad y absorción, además tiene una elasticidad muy reducida, es un tejido bloqueado.

El colorido es muy variado y vívido.

Es un artículo económico y muy implantado en la industria del calzado, con múltiples posibilidades ya sea para plantillas, o para forro interior.

Admite tratamientos como estampado, pegado, foamizado, etc.

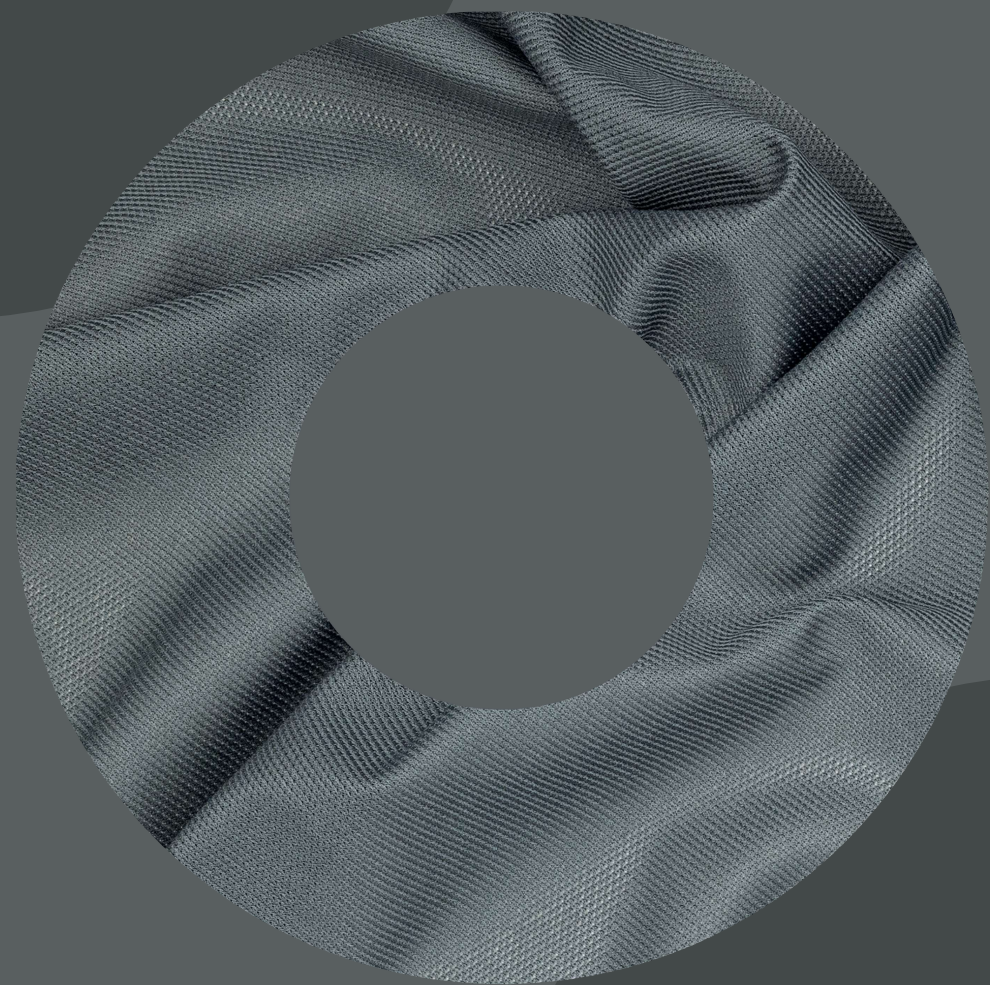

Stock permanente. Disponible en más de 20 colores.
